## August 2007

### Foreword from H-A

*As we enter the second half of 2007, I ask you to be prepared. This is a time when the energies are really going to flow and it is important that you trust in yourself, in your own inner guidance, and in that energy from above which is promoting Unconditional Love, Forgiveness and Respect. With that trust, you will find that the right things will happen at the right time.*

*This is a time to move beyond judgment, both to yourself and others, a time to accept whatever challenges appear in front of you, to know that the result will be peace and love.*

*This is a time when those who live on fear will find the challenges very difficult to deal with, for fear feeds the shadow.*

*So, dear friends, release that fear and move ahead. Allow those energies to channel through you in the way that is right for you.*

*My blessings, H-A.*

### Letter from the Director

When I am asked about channelling by friends and colleagues I am amazed by the perception they already have of the practice. Most have viewed it as something like Derek Acorah does on Most Haunted. Others have described as a mystical or spiritual experience that mediums commonly use to communicate with spirits. But what is channelling really? Whatever the actual explanation, I see channelling as a natural process of exploring our unconscious, and that this process can be developed as a skill. I see that this skill could even be a natural neurological state, that each of us is actually 'wired' to use it. This process allowed me to become aware of, and resolve many of the unconscious 'things' that had held me back from unfolding into the person I am today. It is my experiences and belief in this that drives me to lead the School in the direction I am. In the coming months and years you will see many changes, including more workshops and further research into channelling. My goal is to de-mystify channelling into an everyday practice like meditation. I hope you will join me for the journey.

Rob May BBS MSc

### Foreword from Tony Neate, Patron

Dear Friends, The next six months will bring a period of challenge. What I would like to offer you is an opportunity to help the School of Channelling to find more interested people for our courses. So I am asking each of you to try and find one person to come on a Simply Channelling course. For details, look on [www.schoolofchannelling.co.uk](http://www.schoolofchannelling.co.uk)

"I would also like to draw your attention to July 17th which was designated a day for meditation at 11.11am for one hour, to celebrate a Cosmic Opportunity that is unprecedented in our lifetime. Let me explain. . . The initiator of this event was Shelley Yates who tells of a double miracle that happened to her and her son of four in November 2002. They were travelling by car when it hydroplaned and was swept into a flooded marsh, sinking to the bottom upside down. It quickly filled with water and they ran out of trapped air. Realising that she could not open the doors, she breathed in the water and, during a near-death experience, heard a 'calm, majestic voice' telling her to relax. She saw Beings of Light and was told that all would be well if she followed their instructions and had faith. After 20 minutes she had pulled from the car by rescuers and revived. Her first words were, "Get my baby out of the car!"

His limp body was taken to the Emergency section of a children's hospital and he was hooked up to every possible revival mechanism. Eventually, the doctors said there was no hope, he was haemorrhaging throughout his body and, even if a miracle happened, he would be a vegetable. He had less than 1% chance of living. Once again she heard the voice saying, "Have faith, child," and begged for him to be left on the support system. She was given instructions to allow friends and loving people to parade through his room sending their energy field to the child, infusing his aura with theirs by touching him and each giving him something of themselves, a song, a story, etc.

They did this, day and night, for 3 days, dozens and dozens of people, each for not more than 20 mins. a time. After 72 hours, the child opened his eyes and recognised his mother, and eventually recovered completely. She continued to hear the voice and be directed and gradually realised that there was something they required of her. They wanted desperately for her to give out the message that the power lies within us all; that when combined with the loving energy of other human beings, we can do for the planet what was done for her son. We can revive this Earth and catapult it into healing. That we need to fire the Earth 'grid', an energy system which connects all living beings, to help put an end to the harmful behaviour and destruction on Earth, by realigning the energy of the planet.. She was given the date of July 17th 2007.

So we are being asked to send a "SURGE OF LOVE" from humanity to our Earth planet, by uniting with others in love, peace, harmony, and collective cooperation for a better world. Full story on [www.firethegrid.org](http://www.firethegrid.org)

## August 2007

### Re-launch of the School of Channelling

The School of Channelling was re-launched at The Helios Foundation, in Kings Cross, London on Wednesday 23rd of May. It was a successful event attended by over 20 people who enjoyed a session discussing channelling as well as a demonstration from Tony Neate, Patron of the School of Channelling. As a result we have now run 2 successful weekends of workshops at the Helios Foundation and have another booked for September. Don't miss the channelled Q& A session with Tony Neate to be held at the Helios Foundation on the 26th of September as a follow-up to the re-launch evening.

### Spirit Release Foundation

The Spirit Release Foundation was founded in 1999 by a small group of medical and complementary practitioners who felt that there needed to be a more open approach to spirit release. The SRF objectives are:

- 1) To enhance holistic health through awareness and understanding of spirit attachment and spirit release as part of soul integration.
- 2) To introduce this knowledge to healthcare practitioners to both mainstream and complementary healthcares.
- 3) To provide training and support in this field.
- 4) To provide an information service.

The two main approaches applied within the SRF are the Intuitive and the Interactive methods. These approaches are complementary to one another. Spirit release invokes the help of higher spiritual beings and is not restricted as it is not part of any religious doctrine.

For further information on one-to-one sessions or SRF courses, please contact **Frida Maria** on **01684 560 725** or **07789 682 420**. Also check out the SRF website

### College of Healing

Becoming a student of the College of Healing can be the start of a life changing process and we therefore feel that it is of vital importance to choose the correct course. For those people who have little or no knowledge of energy work there is the Foundation Course whilst at the other edge of the spectrum there is the Professional Diploma Course. This aims to produce a healer competent enough to set up and run their own professional practice.

### Feedback from a Student

We definitely thought it was a worthwhile and profound experience. I know I felt very safe and learnt techniques which I'm sure I'll be using for years to come. Looking forward to hopefully doing a residential.

Robert
