### Foreword from H-A

*Further to my message in the first edition of your newsletter. I would like to add my own inspiration in the hope that it will energise what you are doing. It is very right that you are spreading the concept of channelling beyond Mediumship into allowing people to be in touch with their instinct, their intuition, and their imagination, or whatever you like to call it. Because the coming aware of this sixth sense can enable you to find another dimension of living in whatever work you are doing. The interesting thing about this is that it will work differently for each of you. Maybe you will wake up in the middle of the night with a message, maybe you will be inspired to write something down, maybe you will just allow it to flow through as this sensitive is allowing it to, or maybe it will stimulate what you call your gut feel. Above all it will enable you to find a trust an understanding of the process in which you are involved. This is why the course you are putting together will give that information. It will enable the recipient to express their intuition in the way that is right and unique for them. So whether you are a business man, a doctor, a scientist, or whatever, it is going to be there and you are going to be able to access it. Now the important thing about accessing is to learn to trust in what you are doing, and to trust the energies that you are receiving. The processes that you will be undergoing will enable you to do that. It may be a guidance into something delightful perhaps a hobby, your garden, your cooking. Or perhaps something in which you like to express yourself that may be a part of your work or part of your pleasure. So I say to Rob and all of those of you who are studying to be tutors and are interested in spreading the work of the School, spread it in as wide a way as you can. Emphasise the importance of individuality and the importance of the Ying psychic in finding the way that is right for them to express that inner part of their understanding. I wish happiness and fulfilment to all that read this. And as said in my previous address, please send in any questions that you would like me to answer. Thank-you, Thank-you, Thank-you. I send all of you my love.....H-A*

### Foreword from Tony Neate, Patron

Congratulations to Rob on the April newsletter - I found it really inspiring. Let us all work together to fulfil Rob's vision, one that is shared by so many of us.

If you live in or around London, I do hope you will join us for our re-launch event on **Wednesday 23 May** at **The Helios Foundation, 116 Judd Street, Kings Cross, London, NW1 9RL**. And please tell your friends and invite them too. The evening starts at **7.00pm** with a presentation by our Director, Rob May, followed by a H-A channelling by myself. Light refreshments will be provided. If you will be attending, please e-mail Rob on [rmay@schoolofchannelling.co.uk](mailto:rmay@schoolofchannelling.co.uk)

This will be a first big step into the future. Having recently spent a weekend with six people wishing to become tutors and promote the school on a much wider basis, I feel very excited about what we can become. Also, please help by distributing this newsletter to as many of your friends/acquaintances as possible. Let tomorrow be the first day in the rest of the life of the School of Channelling!

### Letter from the Director

Things have really been moving quickly and there has been much happening even since the last newsletter. We have held a tutor training workshop to prepare experienced channels for teaching the new workshops. Re-development has started on the Schools website, which you will hopefully see the fruits of over this month. I would like to thank all of you for your kind feedback to the last newsletter, it appears to have been well received and I hope that you will find this one as interesting. I would welcome any further comments, or if you have an interesting story or two to be considered for a future newsletter, please send them through to me. This newsletter is for you, and is meant to provide a means to communicate to those interested in actively developing their intuition. I encourage you to check out the website in the coming weeks, and I hope you will find yourself get carried away with the excitement I feel for the future of the School of Channelling.

### The College of Healing

*You may or may not be aware that the School of Channelling was born from a group of individuals involved with the College of Healing in 1991. As our sister organisation, they will have a regular article in the School of Channelling Newsletter.*

A group of Doctors and healers came together in 1983 to found the College of Healing, a registered charity and the first of its kind in Britain. The College is now at the leading edge of the healing movement, both in the U.K. and internationally, maintaining representation on many recognised consultative bodies.

Interest in complimentary therapies is growing around the world and, particularly for those specialising in relaxation and stress reduction, the benefits to health are undeniable. This trend is gathering momentum and with impending Government legislation the need to train with a College that has a proven track record has become essential.

Becoming a student of the College of Healing can be the start of a life changing process and we therefore feel that it is of vital importance to choose the correct course. For those people who have little or no knowledge of energy work there is the Foundation Course whilst at the other edge of the spectrum there is the Professional Diploma Course. This aims to produce a healer competent enough to set up and run their own professional practice.
